

Deer Path – Trail 8 - Rated Most Difficult

This is the staff's favorite trail! This trail is 3.2 miles long and takes you deep into the woods and over some excellent varied terrain with spectacular scenery. It is great for snow shoeing as well skiing. At the halfway point, you will come to the Ice Cascades which is an area where frozen water covers the cliffs along the trail. Deer Path also intersects with Trail, 9 John's Glenn for even more skiing.
