

Suicide Crest - Trail 4 – Rated Most Difficult

Suicide Crest is an excellent trail consisting of mostly intermediate terrain other than one hill known as "Suicide Hill". Suicide Hill is steep but has a long run out so that it can be conquered by taking your time. A relatively level section follows the hill. After a short steep ascent, the rest of the trail is rolling terrain groomed for classical and skate skiing. Suicide Crest trail also offers access to trails off of the golf course.
